NeW PV Challenges

At the beginning of each period, you have 4 new lists of 3 words.

You have four (4) challenge configurations:

- Photo with 3 words (P3)
- Picture with 4 words (P4)
- Video with 3 words (V3)
- Video with 4 words (V4)

Over 400 possible combinations.

- Produce your photo or video. Use all the means at your disposal, computer graphics, image and video processing application, standard camera option, etc. You can also do it with a drawing, a painting, a sculpture, in short, everything is possible, you just have to take a picture of your work.

- Each photo or video produced must refer directly or in various ways to the 3 or 4 words chosen.

It is strictly forbidden to submit images, videos or language that are pornographic, refer to any violence, racist, homophobic, etc. Any discrimination against an individual or group of individuals is prohibited. If such content is published, it will be automatically banned from the application and the sender of this content by decision of the administrators, may be expelled immediately from the application, without refund.

Each entry submitted must be original, no copies will be accepted. If an entry is found to be a duplicate, even if slightly modified, you risk being expelled from the current season or even banned from the application.

You are invited to report any unacceptable activities, either image, video or comment through the flag icon marked with an X.

Selection of winners

Ten (10) participations in a challenge are required for it to become valid, and this, before the end of the period in which the words are part.

It is possible to fight a challenge until the end of its period.

If at the end of its period, the challenge has not reached the 10 required entries, it is interrupted. Entries remain in the application, but do not generate points.

If the Challenge reaches the required ten (10) entries at the end of the Period, the three (3) entries with the most "likes" earn points.

The highest score earns three (3) points, the second highest two (2) points and the third highest one (1) point.

In the event of a tie in entry scores, the last to enter takes precedence over the oldest.

The points won are used to qualify for the Playoffs.

RANDOM

The RANDOM link offers you a challenge already in progress. If you accept it and this challenge reaches the required 10 participations, you will be entitled to double the points if you win it, i.e. 6, 4 or 2 points instead of the regular points.
